LATEST NEWS...

SUMMER | AUTUMN 2021

STILL FOLLOWING THE CALL OF THE DISCOBALL

I only got back to writing my own music some 17 months ago, when we were forced to stop live performance back end of March 2020. I wanted to be creative with this 'down' time, and the seed had already been planted the previous March 2019 (but that's another story for another time), I was gonna get back to doing what I love making, Soulful, Funky, Disco, House, dance music.

Armed with a slow outdated iMac, with old version of Logic, my performance mic plus mixing desk, a small midi controller keyboard, and a pack of pencils and writing pad, my home dining room became a dining room/studio. 8 months later, and my first signed track is released upon the world, December 2020.

Fast forward 9 months, I have been truly blessed to have met (virtually of course), and worked with some really amazing creative people from all over the UK, Europe, and the US. The dining room has now been very nicely equipped, and refurbished into a fully fledged recording studio creative space.

I've now released a total of 27 tracks, plus there have been a further 9 Remixes. Worked with 17 different artists on collaborations, releasing tracks on 19 Record Labels, including DJ International, Midnight Riot, Quantize/Unquantize, Oceantrax, Glasgow Underground, POJI, Let There Be House/In It Together, King Street Sounds.

Thank you to all who have supported me, and my music, it really has been the inspiration that has kept me going... there is much more to come with further tracks already signed for release in 2021 (some really exciting major Remix work a foot on some of my own full productions). The studio project schedule continues a pace, and there are some great Live PA gigs already pencilled for 2022, doing my own music (YES!!), and new DJ sets, more details to come... As I said truly blessed, and so grateful, for the opportunities, and support, I've been given xxx
